Leading Company in Screen Golf

KME Co., Ltd. is a leading company that provides state-of-the-art screen golf facilities on ships sailing across the ocean. We offer customized golf solutions and an environment that replicates real golf courses, allowing for a comfortable leisure experience onboard.

Screen Golf Overview

KME Co., Ltd.'s screen golf provides an immersive environment that replicates a real golf course. It can be easily enjoyed with projectors and kiosk systems, and offers a professional experience through posture correction and swing analysis using sensors. The swing plate with an auto-tee function perfectly recreates the feel of real ground play.

Main Features and Programs

· Projector and Kiosk System

Latest Projector
High-definition projectors provide vivid and realistic golf course visuals.

Intuitive Kiosk System
Screen golf is easily accessible to customers.

· Posture Correction and Swing Motion Analysis

Sensor-Based Analysis
Cutting-edge sensors analyze the user's posture and swing motion in real time.

Customized Feedback
Based on the analysis data, personalized feedback is provided for posture correction and swing improvement.

· Swing Plate and Auto-Tee

Swing Plate with Auto-Tee
The swing plate is equipped with an automatic tee-up function, offering convenient practice sessions.

Real Ground Feel
The swing plate recreates the feel of actual ground, providing a more immersive golfing experience.

Products and Services

List

Beam Project

A beam projector used in the screen golf system that projects high-definition images onto the screen. It allows players to see their swings and shots in real-time, providing an immersive golf experience.

Kiosk

A self-service device used in the screen golf environment, equipped with a touchscreen that allows users to enter their information and make payments. It offers convenient accessibility through reservation management and user interfaces.

Shot Analysis

Software that analyzes swings and shots, measuring the trajectory, speed, distance, and more in real-time. This analysis helps players improve their skills.

Wood Console

A wooden console for controlling and storing equipment in the screen golf system. It is durable and features a luxurious design that enhances the aesthetics of the space.

Products and Services

List

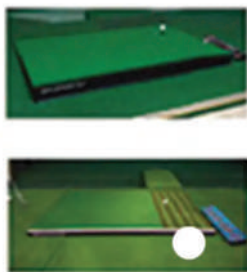

Screen Cloth

A screen fabric designed to reflect high-resolution images, used alongside a beam projector. It comes in various sizes and enhances the clarity of the images, increasing immersion.

Auto Tee Up

Equipment that automatically tees up the ball, providing convenience while the user prepares for their swing. It saves time during multiple shot practices.

Swing Plate

A flat plate designed for swing practice, supporting safe and effective swing training. It helps maximize the feel of impact with the golf club.

V-VIP Round Screen

A large round screen designed to be viewed from multiple angles. It allows players to enjoy the game in real-time during screen golf, providing a more immersive viewing experience.
